

FRASER ALEXANDER

#FUTUREFRASER

WALKING INTO A DIGITAL FUTURE, TOGETHER

Silindile is on her way to work today. Little does she know that today is going to be a very good day.

On the other side of town, maybe even another country away, Peter is waking up to his day.

And yes, you guessed it. He doesn't know it yet, but he is about to have a great day too.

You see, Silindile works for Fraser Alexander and Peter is a client of Fraser Alexander.

Peter stresses every day about how he will keep his facility safe, efficient, and productive. And this worry keeps him up at night.

Silindile wants to do good. She wants to keep learning, work in a job that she loves and feel fulfilled.

Little do they know, there is one thing stopping them from reaching these goals. It lurks around everyday looking for ways to stop success for everyone. Can you guess what it is?

It's risk! Risk likes to create chaos and threaten people's safety. It's ultimate goal is to find ways to close operations! Not just in Peter's business, but in Fraser Alexander too!

But there is nothing to fear! Fraser Alexander saw this and wanted to do something about it. And we're excited to share it with you!

Why? Because you can help.

Silindile, just like you, has superpowers that can support our clients, like Peter, to sleep more peacefully at night. And at the same time, can keep risk at bay.

Let me explain.

Peter, and all our clients, are our heroes. It's their job to keep operations going, reduce risk and keep people safe.

But they don't have all the tools, technology or knowledge to do this. This is where you come in!

As family of Fraser Alexander, we are focusing on empowering you more, so that you can better support Peter, and our other clients.

How? By shifting our focus to the future! We are working on clever new technology that will bring you new skills, easier ways of working and a sense of fulfilment.

Making you the perfect guide to support Peter in winning his day! Would'nt it be great to have knowledge and technology that not only helps you, but helps others too?

At Fraser Alexander we're making sure that our employees, like you and Silindile, are equipped and confident.

This may include some training, some small changes to how we operate, but mostly a mindset of being client-focused.

We believe all your efforts should reward your life and your future, it should reward the life of our clients, and make Fraser Alexander greater.

To help you along this client-focused journey, we are placing all our focus on these 6 promises.

SAFE

DIGITAL EXPERTS

THOUGHT LEADERS

CLIENT RELATIONSHIPS

GLOBAL STANDARDS

ETHICAL

We want you to drive to work everyday, feeling like you make a difference. Because you do!

And we want our clients to wake up feeling rested and supported. Making everyday a great day!

Risk might not ever go away, but with your help, and Fraser Alexander supporting you, we will walk into the future together.
