

MINE RESIDUE DISPOSAL WORKSHOP 2026 JOHANNESBURG, SOUTH AFRICA

INVITATION

25 – 29 MAY 2026 AT THE KOPANONG HOTEL

Fraser Alexander is pleased to announce that the 2026 Mine Residue Disposal Workshop is scheduled for May 2026 at the Kopanong Hotel in Benoni, South Africa.

The content will cover a range of tailings management topics, including the regulatory landscape and evolving international best practices, such as the Global Industry Standards on Tailings Management.

Fraser Alexander is the largest outsourced tailings contractor, managing more than 100 tailings storage facilities worldwide.

Purpose of the workshop

The Mine Residue Disposal Workshop equips mine management and operations teams with the necessary knowledge to fulfil legal and company obligations. It covers skills for managing, operating, and monitoring tailings disposal sites, focusing on legal, contractual, and operational requirements, with technical support. The goal is to enhance the understanding of tailings risks, and the management thereof.

Target audience

Mine management, technical personnel, contractors, consultants, plant operators and anyone else with a responsibility for tailings. The workshop will include a focus on Africa.

Additional offerings

We do offer more technically and operationally focused courses and master classes separately.
